

## Mekorma MICR Compatibility Information

To the best of our knowledge, Mekorma MICR (all versions) is compatible with Microsoft Dynamics GP Service Packs except when specifically noted. All of our builds are tested with the current GP service pack and any applicable hotfixes that are reported to affect Mekorma MICR functionality.

- ✦ **Exception:** Mekorma MICR is not compatible with Microsoft Dynamics GP 8.0 if Service Pack 3 is installed.

### *Current Mekorma MICR Build Compatibility*

The following table lists the current Mekorma MICR Builds, the compatible Dynamics GP Service Pack and Tax Update, and the Dynamics GP Build Level:

Mekorma MICR Build	GP Service Pack	GP Build Level
2010 Build 14	Service Pack 1 & 2 (R2) and U.S. Round 6 Updates	11.00.1799
10.0 Build 72	Service Pack 5 and U.S. Round 6 Updates	10.00.1757
9.0 Build 52	Service Pack 4 and U.S. Round 2 Updates	9.00.0386
8.0 Build 12	Service Pack 5	8.00g73

- ✦ To verify that you are running the latest Payroll Tax update, select **Tools** > **Setup** > **System** > **Payroll Tax**. The current update value is 7/15/2011.

### *Mekorma MICR Builds and GP Service Packs*

The following table lists Mekorma MICR Builds and the compatible GP Service Pack (for example, if you are on Mekorma MICR Version 10.0 B34, you should be on Dynamics GP Service Pack 2):

	Mekorma MICR Build	Dynamics GP Service Pack
<b>GP Version 2010`</b>		
	2010 B014+	SP2 (R2)
	2010 B012+	SP1
	2010 B9	RTM
<b>GP Version 10.0</b>	10.0B65+	SP5
	10.0B50	SP4
	10.0 B38	SP3
	10.0 B34	SP2
	10.0 B31	SP1
	10.0 B11	RTM

	Mekorma MICR Build	Dynamics GP Service Pack
<b>GP Version 9.0</b>	9.0 B42+	SP4
	9.0 B38	SP3
	9.0 B30	SP2
	9.0 B20	SP1
	9.0 B3	RTM

+ Indicates any future build can be compatible with the same GP Service Pack shown if it is the latest GP Service Pack.

☞ If you need an older Mekorma MICR build that is not listed on our website, please contact Mekorma Support at 888-635-6762 or [support@mekorma.com](mailto:support@mekorma.com) for download instructions.

### *Mekorma MICR for Canadian Payroll Builds*

Mekorma MICR Build	Tax Updates	Canadian Payroll
Mekorma MICR 2010 Build 9	Canadian Payroll 2011 Round 2 Tax Update and Dynamics GP Service Pack 2 (R2)	2/09/2011
Mekorma MICR 10.0 Build 23	Canadian Payroll 2011 Round 2 Tax Update	2/09/2011
Mekorma MICR 9.0 Build 18	Canadian Payroll 2011 Round 2 Tax Update	2/09/2011

**Exception:** Due to changes in Canadian tax tables, Mekorma MICR for Canadian Payroll is not backwards compatible with older versions of Microsoft Dynamics GP updates, such as hotfixes or service packs.

### *Mekorma MICR and Windows Operating Systems*

Following is a list of Windows operating systems compatible with Mekorma MICR:

- Windows 7
- Windows 2000
- Windows XP
- Windows Vista
- Windows Server 2003
- Windows Server 2008

☞ The Mekorma MICR Numeric Method of check configuration is not supported for Windows 7 operating systems.

### **SQL Server 2008**

Mekorma MICR Version 10.0B38 (and later) and Version 11.0b09 (and later) are compatible with SQL Server 2008.

### ***Implementing Mekorma MICR in a 64-bit Environment***

Implementation of Dynamics GP in a 64-bit environment requires a directory change to "C:\Program Files (x86)\Microsoft Dynamics\GP\" from the default "C:\Program Files\Microsoft Dynamics\GP\" in order for the installation to succeed. (See Dynamics GP KB article 918983).

When installing Mekorma MICR, your installation directory must point to Dynamics GP, which should be "C:\Program Files (x86)\Microsoft Dynamics\GP\". Please change the directory in the Mekorma MICR installer to the same target directory and follow the onscreen instructions.
