

Mekorma MICR Canadian Payroll for Microsoft® Dynamics GP Release Notes
Copyright (C) 2007, Mekorma, All Rights Reserved.
Version 9.0

What's New

Version 9.0 b18

In this build, we updated Mekorma MICR for Canadian Payroll to be compatible with the changes implemented in the 2010 Canadian Payroll Year-End/2011 Tax Update Round 1 for Microsoft Dynamics GP.

Version 9.0 b17

- * Fixed an issue with the YTD fields populating with incorrect information.

Version 9.0 b16

- * Fixed an issue with the Gross Earning **YTD Tax Return::Taxable Income** field not printing properly.

Version 9.0 b15

- * This build is compatible with the 2008 Canadian Payroll July Tax Update for Microsoft Dynamics GP 9.0.
- * This build is compatible with the 2007 Canadian Payroll Year-End Compliance and 2008 Tax Update for Microsoft Dynamics GP 9.0.

What's New

Version 9.0 b13 Round 2

IMPORTANT NOTE: If you are installing Mekorma MICR for Canadian Payroll Version 9.0 b13, you must be running Mekorma MICR Version 9.0 B18 or greater, and you will need to re-run the Mekorma MICR table upgrade process. Please see the *Mekorma MICR for Canadian Payroll User Guide.PDF* for information on updating MICR tables.

- * Compliance with Microsoft Dynamics GP 9.0 Round 2 2006 Canadian Payroll Year-End and 2007 Tax update.
- * Added Individual Date fields.

- * Mekorma MICR Setup (Payroll - Canada) can be opened from the main menu (**Tools > Setup > Payroll > Canada > Mekorma MICR Canadian Payroll Setup > Mekorma MICR Setup**).
- * Added the Payment Summary::Net Pay Words field.
- * Suppressed the tax credits warning that states "No Federal (CA) Tax Credits is found for x". This warning displays when printing MICR for Canadian Payroll cheques.

What's New

Version 8.0 b2

- * Compliance with Great Plains 8.0 Round 2 2006 Canadian Payroll Year-End and 2007 Tax update.
- * Suppressed the tax credits warning that states "No Federal (CA) Tax Credits is found for x". This warning displays when printing MICR for Canadian Payroll cheques.
