

# Is Remote Payment Services right for your business?

---

*A few questions to get you started...*

**MEKORMA**

Does your company perform accounts payable (AP) tasks in Microsoft Dynamics GP or Microsoft Dynamics 365 Business Central?

YES

NO

RPS is likely a good fit for your team.

RPS may not be a good fit for you, but speak to a member of our team for more insights.

If using Microsoft Dynamics GP, do you have the Mekorma Payment Hub?

YES

NO

Great! RPS is an add-on to the Payment Hub. Talk to a Solution Specialist to get set up.

The Payment Hub is the foundation for the payment process, allowing your team to automate payment management and approval workflows. RPS is an add-on to the Payment Hub. You will need this to access RPS.

Do you want to stop paying most of your vendors by check? Interested in offering electronic payments as an alternative?

YES

NO

RPS is a quick solution because the outsourced payment provider will do all the vendor onboarding for you.

Even if you've already converted most of your vendors to ACH or EFT payments, RPS can still help by allowing you to outsource any vendors who still pay by check.

Do you have one or more people on staff dedicated to printing and mailing checks?

YES

NO

**No more stuffing envelopes all day! RPS will free your employees up to contribute to more valuable tasks for the business.**

**Great! RPS can still help by allowing you to outsource any vendors who still want to pay by check.**

Is your business growing?

YES

NO

**Awesome! RPS can help you do more with less. Reduce manual tasks while automating payments and outsourcing vendor onboarding and management.**

**Even if you're not in a growth phase, RPS can help streamline and simplify your payment processes. And it can even lead to an increase in revenue from rebates. We'd love to connect and see how RPS could support your business!**

Does your business have an annual AP spend of \$20 million or more?

YES

**RPS is most beneficial to businesses with this level of AP spend. Overall benefits and rebates increase with your annual spend.**

NO

**RPS can still benefit your business. You will still have an opportunity to reduce manual tasks and fraud risk, increase security and earn rebates. Talk to a Solutions Specialist to find out how.**

Do you process payables for multiple companies in Microsoft Dynamics GP?

YES

NO

RPS in the Payment Hub Action Board includes robotic processing automation capabilities that allow you to handle the full payment process in one window for all companies and checkbooks.

That's okay! RPS is available for Business Central as well as GP. We'd love to discuss how RPS can help support your business goals.

# Think RPS may be a good fit for your business?
